Webinar 3—Leading Approaches in Solid Waste Management Regulation

August 21, 2015 9-10 am

What would it mean to move solid waste out of the water cycle and back into the carbon cycle? This webinar will explore emerging thinking and approaches to solid waste management for water supply and quality outcomes while protecting public health. Associated regulatory frameworks will be presented and discussed.

Webinar 2—Regulating Rainwater and Stormwater Capture for Multiple Public Health Outcomes

July 17, 2015, 9-10 am

Survey leading approaches to rainwater and stormwater capture and use and investigate the regulatory challenges inherent in endeavoring to support water-savvy approaches while protecting public health.

Webinar 1—California's Water Crisis: Leadership Opportunities for Environmental Health

June 19, 2015, 9-10 am

This webinar kicks off our environmental health track with an introduction to new paradigms in water management and explores the question of how environmental health leaders can best respond in the face of rapid environmental and political change on water issues.
